

21ST INTERNATIONAL SEMINAR ON

PASTE AND THICKENED TAILINGS

11-13 APRIL 2018 | PERTH, WESTERN AUSTRALIA

SPONSORSHIP & EXHIBITION OPPORTUNITIES

BACKGROUND

This seminar is the 21st in the series of international seminars on paste and thickened tailings (P&TT) initiated by the ACG in 1991, and reflects the developing maturity of P&TT management. Paste 2018 seeks to explore the considerations needed to raise the mining industry leaders' awareness of how important environmental stewardship, with regard to their tailings facilities, is to long-term industry sustainability.

Over the past decade, the potential benefits to be gained from adopting thickened tailings technology on mining operations have become widely accepted, and there would be few mine feasibility studies presently undertaken that do not include this as an option to be evaluated. Very interestingly, a number of operations are now retrofitting their plants and tailings storages from conventional to thickened technology. The reason for this is the increase in the mass of tailings that can be accommodated on a given footprint, and more importantly, the greater the volume of water that can be recovered for reuse in the plant in arid areas.

SEMINAR THEMES

- Thickening and filtration
- Transportation
- Rheology
- Surface disposal
- Underground and backfill
- Closure and rehabilitation
- Case studies
- Emerging issues and technologies

PROMOTION

The ACG is undertaking a niche marketing campaign to promote this seminar to local and international professionals via:

- Internet marketing – promotion via the dedicated seminar website, ACG website and other mining event websites.
- Promotion of the event in the ACG newsletter that is distributed to almost 7,000 mining professionals worldwide.
- Industry association including the University of Science and Technology Beijing, The University of Melbourne and The University of Western Australia.
- Direct mail campaign – event specific flyers, registration brochures and targeted electronic mail.
- Media support and coverage from reputable industry journals, magazines and newsletters.
- International and local exposure through the activities and support of key industry personnel.
- Regular communication to ACG mining event past delegates.
- Promotion at selected ACG and international geotechnical engineering events.
